

bravinglifephotography.com

Capturing the beauty of those fighting to be healthy, strong, or at peace with who they are.

Why?

Braving Life Photography was created to give back a fraction of what I have gained from watching what happens when we encourage, inspire, and honor one another's journey through difficult times. By donating no cost private portrait sessions I hope to create images showing the spirit, tenacity, and light within each of us, regardless of the circumstance.

Who?

- * Cancer patients and survivors
- * Transgender community in Orlando.

What next?

- Non-Profit organizations may refer candidates for consideration.
- Locations, dates, and scheduling will be done on an individual basis.

Once an individual accepts the session, all details will be worked out directly with them.

*Braving Life Photography reserves the right to use a select number of images for advertising only.

About Yvette

"I was born in Massachusetts and raised in Florida. I am an avid supporter of the arts. When I am not photographing or creating art, I enjoy reading and being an activist for women's issues, LGBTQ equality, social justice and the environment. I live in Debary Florida with my wife Dawn and our four sons."
